GLOBAL WEALTH ADVISORS TO SUPPORT CYSTIC FIBROSIS FOUNDATION *Committed to giving back to the communities in which they serve*

DALLAS, TEXAS – Global Wealth Advisors (GWA) announces its commitment to giving back to the communities in which they serve, as they partnered with the Cystic Fibrosis Foundation in their 2017 Chicago Title Dallas Wine Opener fundraising efforts. According to GWA President Kris Maksimovich, “We are excited at the prospect of continuing to help CFF in their fundraising efforts by adding a link on our website to their donation page.” This donation link will be active through the end of the year.

Since 1955 the Cystic Fibrosis Foundation has been leading the search for a cure. Nearly every drug on the market for Cystic Fibrosis is a result of their financial support and funding to biotechnology and pharmaceutical research to speed the development of new treatments. According to Development Director Charles Colmark, “The story of cystic fibrosis is probably the most exciting medical story of our lifetime. The work of the last 30 years has led to an average life expectancy that went from before kindergarten to the 40s. Now doctors and researchers believe life expectancy will soon be into the 70s. This story wouldn’t be a reality without the support of benevolent individuals and companies like Global Wealth Advisors who want to see their investments make a lasting difference”.

Founded in 2008, GWA is a premier financial advisory firm offering boutique wealth management. Headquartered in Dallas, Texas, with branch offices in Corsicana, Houston and Snyder, Texas, the GWA team has developed and refined a process to help clients retire when they want or get to a “work-optional” lifestyle, through a unique planning and wealth management process called the *3P Approach*.
